# Assignment -3

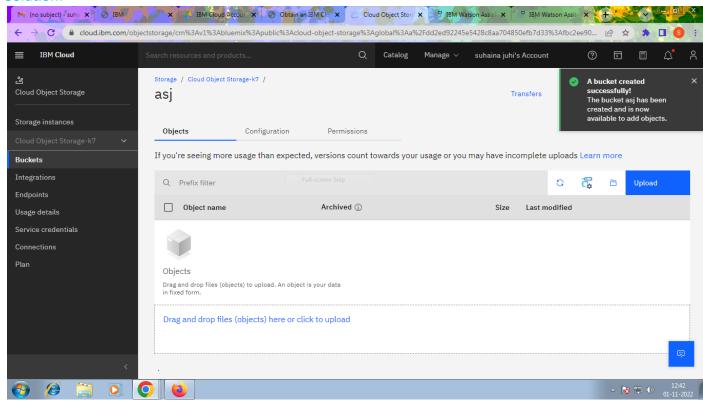

**HTML Programming** 

Assignment Date	08 October 2022
Student Name	ARUL SELVI K
Student Roll Number	913319104005
Maximum Marks	2 Marks

#### Question -1:

1.Create a Bucket in IBM object storage.

#### Solution:

## Question -2:

2.Upload an 5 images to ibm object storage and make it public. write html code to displaying all the 5 images.

## Solution:

<DOCTYPE html>

<html>

<head>

<title>First Website</title>

</head>

<body>

<h1>This is Images</h1>

```
<img src="./picture.png" alt="">
</body>
<body>
<img src="./flower.png" alt="">
</body>
<body>
<img src="./mango.png" alt="">
</body>
<body>
<img src="./key.png" alt="">
</body>
<img src="./key.png" alt="">
</body>
<body>
<img src="./key.png" alt="">
</body>
</body>
</html>
```

# This is Images

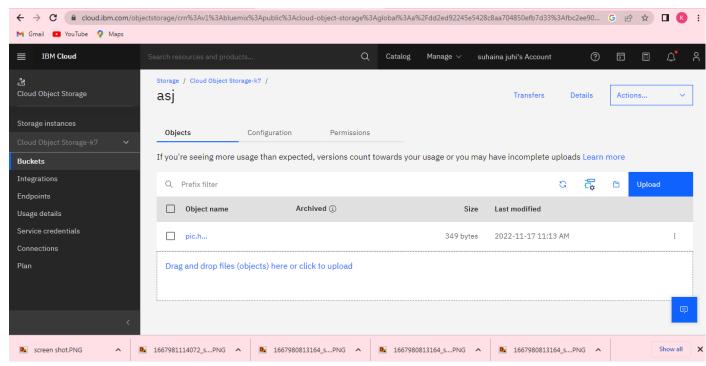

#### Question -3:

3. Upload a css page to the object storage and use the same page in your HTML code.

#### Solution:

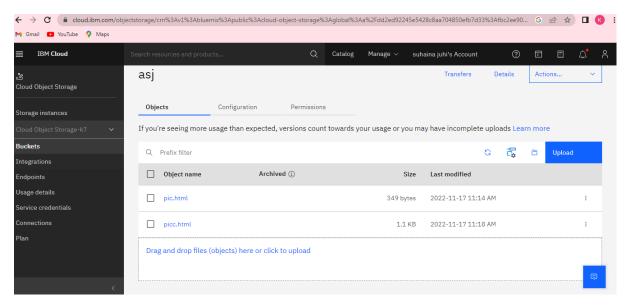

```
<DOCTYPE html>
<html>
<head>
<title>First Website</title>
</head>
<body>
<h1>This is a heading</h1>
This is all images
<img src="./picture.png" alt="">
</body>
<body>
<img src="./flower.png" alt="">
</body>
<body>
<img src="./mango.png" alt="">
</body>
<body>
<img src="./key.png" alt="">
</body>
```

```
<body>
<img src="./dog.png" alt="">
</body>
</html>
<!DOCTYPE html>
<html Lang ="en">
<head>
<meta charset="UTF-8>
<meta http-equiv="X-UA-compatible"content="IE=edge">
<meta name="viewport" content ="width=device-width,initial-scale=1.0">
<link rel= "stylesheet"</pre>
<title>document</title>
</head>
<body>
<label for="files">select multiple files</label>
<input type="file" id="files" multiple="multiple" accept="image/jpeg,image/png,image/jpg">
<output id="result">
<script src="script.js"></script>
</body>
<files.length;i++)[
if(! files [i].type.match("image"))continue;
const pic reader new filereader():
pic reader.addeventlistener("load",function(event){
const picfile = event.target;
```

const div = document.createelement("div");

## This is Images

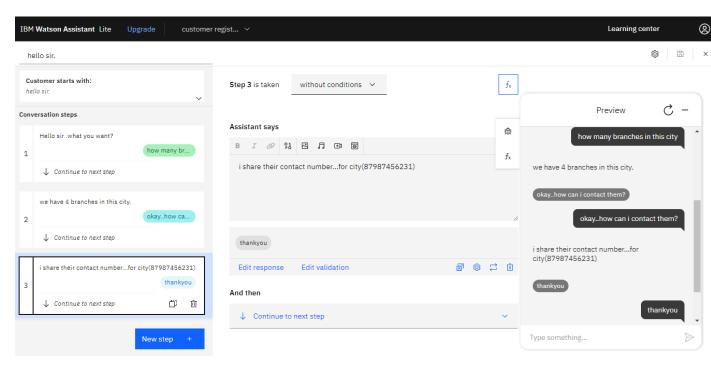

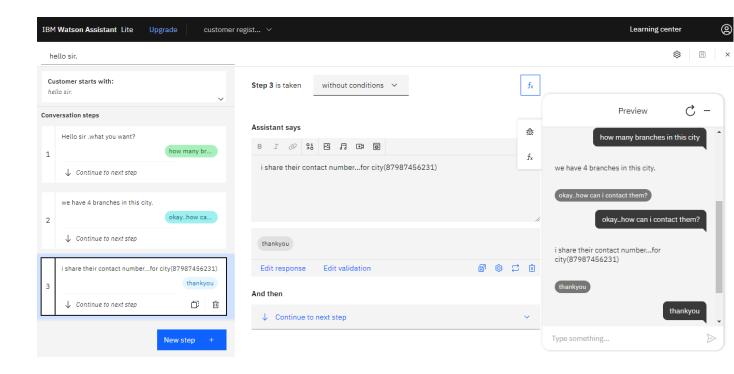

#### Question -4:

4.Design a chatbot using IBM Watson assistant for hospital. Ex: User comes with query to know the branches for that hospital in your city. Submit the web URL of that chat bot as a assignment.

#### Solution:

# Question -5:

5.Create Watson assistant service with 10 steps and use 3 conditions in it. Load that script in HTML page.
